- 15. Adjournment

"RE-BUILDING THE CITY'S WATER SYSTEMS FOR THE 21ST CENTURY"

Sewerage & Water Board of NEW ORLEANS

MITCHELL J. LANDRIEU, President WM. RAYMOND MANNING, President Pro-Tem 625 ST. JOSEPH STREET
NEW ORLEANS, LA 70165 • 504-529-2837 OR 52W-ATER
www.swbno.org

April 11, 2014

TO THE HONORABLE PRESIDENT AND MEMBERS OF THE SEWERAGE AND WATER BOARD OF NEW ORLEANS:

A regular meeting of the **Executive Committee** of the Sewerage and Water Board was called to order on Friday, April 11, 2014 at 9:00 AM in the Board Room at 625 St. Joseph Street.

ATTENDANCE

Present:

Wm. Raymond Manning, Committee Chair

Mark M. Moody

Glen Pilie

Florence Schornstein Charles F. Webb

Also in Attendance: Robert Miller, Interim Executive Director; Nolan Lambert, Special Counsel; Brian Ferrara, Deputy Special Counsel; Harold Marchand, Legal Counsel; Joseph Becker, General Superintendent; Robert Jackson, Community & Intergovernmental Relations Director; Alvin Porter, EDBP Department; Bobby Nathan, Equal Employment Opportunity Director (EEOC); Kathleen LaFrance, Executive Director's Office; Willie Mingo, Purchasing Director; Carol G. Rocque, Damon Rocque Securities; Stephen Stuart, BGR.

ACTION ITEMS

1. Approval of Previous Report

The Committee reviewed and approved the previous report from March 14, 2014.

The Committee considered the following forwarded action items of the Operations Committee Agenda as follows:

2. Bid Recommendations – DBE Participation

The Interim EDBP Director, Mr. Alvin Porter, provided information and an overview of the contracts and bid recommendations for the month of April.

Furnishing Fire Extinguishers Service - Req. No. YW14-00004

Herbert S. Miller \$50,496.00

Based upon analysis of SLDBE participation, The Economically Disadvantaged Business Program recommends that the SLDBE participation submitted by Herbert S. Miller by approved.

Furnishing Flashlights and Flashlight Batteries - Req. No. RX-YW-14-0005

•	Balthazar Electriks Wholesale Distributors	\$37,009.50
•	General Mills Supplies, Inc.	\$42,222.40
•	Assorted Products, LLC	\$46,418.75

Based upon analysis of SLDBE participation, the Economically Disadvantage Business Program recommends that the SLDBE participation submitted by Balthazar Electriks Wholesale Distributors, General Mills Supplies, Inc. and Associated Products, LLC be approved.

The above reference bid recommendations on subject contracts with DBE participation was approved by a motion of Mrs. Florence Schornstein and seconded by Mr. Glen Pilie, and the motion carried.

3. Construction Review Committee

Open Market Contracts

•	Contract #3792	Wetlands Assimilation Expansion Project Sewerage and Water Board of New Orleans East Bank Sewerage Treatment Plant Site Estimated Cost : \$2,393,000.00 with 36% DBE Participation Goal
•	Contract #3986	Ninth Ward Area Sewer Rehabilitation, Sewer Rehabilitation No. 5 Estimated Cost : \$9,540,748.00 with 28% DBE Participation Goal
•	Contract #6249	HMGP Retrofit Power Distribution Network (Design Build) Estimated Cost: \$27,000,000.00 with 15% DBE Participation Goal

The above reference Construction Review Committee recommendation on subject contracts with DBE participation was approved by a motion of Mrs. Florence Schornstein and seconded by Mr. Charles F. Webb, and the motion carried.

4. Staff Contract Review Committee

The Staff Contract Review Committee met on March 18, 2014, and made the following recommendations.

Open Market, 30% SLDBE Participation, one (1) year with a one (1) year renewal option.

1. Furnishing River Sand, Mason Sand and Wash Gravel

Estimated Cost:

\$350,000.00

2. RFP for Administrative Hearing Officers

Estimated Cost:

\$75.00 per hour

3. Furnishing Annual Service Awards for the Employees Incentive Committee (EIC) Award

Program for 2014

Estimated Cost:

\$29,500.00

4. Furnishing Banquet Facilities and Food for the Employee Incentive Committee (EIC) Award

Program for 2014

Estimated Cost:

\$39,800.00

First and Final Renewal, 30% SLDBE participation.

5. Furnishing Aerosol, Janitorial and Industrial Chemicals

Budget Amount:

\$283,349.20

Prime Contractor:

Assorted Products

Subcontractor:

West Bank Paper and Janitorial Supplies

6. Furnishing Reclaimed Asphaltic Pavement (RAP)

Renewal Cost:

\$249,750.00

Prime Contractor:

Hamp's Construction

SLDBE Subcontractor:

Loris O. Ausama Enterprises, Inc.

Third Renewal of four (4) one (1) year renewal options, 0% SLDBE participation.

7. Furnishing Emergency Response Services for Clean-up Oil and Chemical Spills

Renewal Cost:

\$15,970.75

Prime Contractor:

OMI Environmental Solutions

First and Final renewal, 0% SLDBE participation.

8. Furnishing Iron Castings

Renewal Cost:

\$260,266.95

Prime Contractor:

East Jordan Iron Works, Inc.

The above referenced Staff Contract Review Committee recommendations on subject contracts with DBE participation were approved by a motion of Mrs. Florence Schornstein and seconded by Mr. Glen Pilie, and the motion carried.

5. Renewal Construction Contract with DBE Participation

2nd Renewal Contract with DBE Participation for Contract #8138 – Skilled and Unskilled Labor for Maintenance Services

The Prime Contractor is the Gee Cee Co., Inc. The DBE participation Goal is 30%. The DBE participation achieved is 14.72%. However, explanations exist as to why the DBE participation goal is not met. Therefore, the Economically Disadvantaged Business Program recommends that subject contract be renewed.

The above referenced subject contract was approved by motion of Mr. Mark M. Moody and seconded by Mrs. Florence Schornstein, and the motion carried.

Following a discussion, Mr. Charles F. Webb requested staff to provide an update on the above contract information re: DBE participation within the next 60 to 90 days, and to bring that information back to the Board.

6. Final Acceptance Contracts with DBE Participation

Contract #8126 - Re-paving Open Cuts in Streets, Driveways and Sidewalks Resulting from the Repair to the Sewerage and Water Board Underground Utilities

The Prime Contractor is Fleming Construction, Co., LLC. The DBE participation goal is 38%. The DBE participation achieved is 58.08%.

The Economically Disadvantaged Business Program recommends that the SLDBE participation on subject contract be approved for final acceptance.

The above referenced subject contract was approved by motion of Mr. Mark M. Moody and seconded by Mrs. Florence Schornstein, and the motion carried.

INFORMATION ITEMS

7. Status Update on New Board Members

The report was received.

8. Status Update on New Executive Director

The report was received.

9. Status of Draft Cooperative Endeavor Agreement (CEA) for Executive Director Responsibilities

The report was received.

The report was received.

11. Tracking Tool for Commitments to the City Council

The report was received.

12. EEOC Activity Status Report Y.T.D.

The report was received.

13. ADJOURNMENT

There being no further business to come before the Committee, the meeting adjourned at 9:25 AM.

Very truly yours,

Wm. Raymond Manning Committee Chair

ITEM #2

Contract #30009: Restoration of Existing Gravity Sewer Mains by Excavation and Replacement from Manhole-to-Manhole at Various Sites throughout Orleans Parish

On Thursday, April 17, 2014, five (5) bids were received for subject contract. The bid totals are as follows:

The estimated budget is \$ 5,000,000.00.

Thirty-six percent (36%) SLDBE participation was requested on this contract.

The apparent lowest bidder, Wallace C. Drennan, Inc., submitted the following subcontractors:

C&M Construction Group, Inc. (eligible certified SLDBE) to perform Municipal and Public Works Construction \$500,000.00-23.95%

Prince Dump Truck Service (eligible certified SLDBE) to provide trucking and hauling, and material supplies \$180,000.00-8.62%

Choice Supply Solutions, LLC (eligible certified SLDBE) to provide material supplies \$80,000.00-3.83%

SLDBE Participation totals:

\$760,000.00 — 36.40%

The apparent second lowest bidder, Fleming Construction, Co., LLC, submitted the following subcontractors:

Hebert Trucking and Equipment Service (eligible certified SLDBE) to provide trucking and material \$298,965-12.50%

Cooper Contracting Group, LLC (eligible certified SLDBE) to perform restoration of sewer mains \$287,006.40-12.00%

Auguillard Construction Co., Inc. (eligible certified SLDBE) to perform a sphalt and concrete pavement restoration \$287,006.40-12.00%

SLDBE Participation totals:

\$872,977.80 — 36.50%

Contract #30009: Restoration of Existing Gravity Sewer Mains by Excavation and Replacement from Manhole-to-Manhole at Various Sites throughout Orleans Parish
SLDBE Participation Analysis
April 2014
Page 2

Based upon analysis of SLDBE participation, the Economically Disadvantaged Business Program recommends that the SLDBE participation submitted by Wallace C. Drennan, Inc.; and Fleming Construction, Co., LLC, be accepted.

ITEM#3

Staff Contract Review Committee Recommendations

The Staff Contract Review Committee met on April 18, 2014 and made the following recommendations:

Open Market Contracts

Open Market, 20% SLDBE Participation, one (1) year with a one (1) year renewal option.

1. Furnishing Grass Cutting and Debris Pickup of the Sewerage & Water Board of New Orleans East Bank Canals

Estimated Cost:

\$600,000.00

Areas of participation:

Labor, supplies and grass cutting related services

Funding Source:

Operating and Maintenance Budget

2. Furnishing Grass Cutting and Debris Pickup of the Sewerage & Water Board of New Orleans West Bank

Canals

Estimated Cost:

\$600,000.00

Areas of participation:

Labor, supplies and grass cutting related services

Funding Source:

Operating and Maintenance Budget

3. Furnishing Chemical Control of Foliage at Specified Sewerage & Water Board Locations within the City of New Orleans

Estimated Cost:

\$300,000.00

Areas of participation:

Labor, supplies and foliage control related services

Funding Source:

Operating and Maintenance Budget

Open Market, 0% SLDBE Participation, one (1) year with a one (1) year renewal option.

4. Furnishing Safety Shoes

Estimated Cost:

\$125,000.00

Percentage Goal Justification:

Does not lend itself to SLDBE participation because product is a sole source item that cannot be subdivided and is delivered directly from the

manufacturer.

Funding Source:

Operating and Maintenance Budget

5. Furnishing #1 All Purpose Rag Wipers

Estimated Cost:

\$50,000.00

Percentage Goal Justification:

Does not lend itself to SLDBE participation because the product is a sole source item for which the only

known producer is a certified SLDBE.

Funding Source:

Operating and Maintenance Budget

6. Furnishing Fire Hydrant Anti-Tampering Devices

Estimated Cost:

\$500,000.00

Percentage Goal Justification:

Does not lend itself to SLDBE participation because product is a sole source item shipped directly from the

manufacturer.

Funding Source:

Operating and Maintenance Budget

7. Furnishing 4" and 5" Fire Hydrants Repair Parts

Estimated Cost:

\$500,000.00

Percentage Goal Justification:

Does not lend itself to SLDBE participation because product is a sole source item shipped directly from the

manufacturer.

Funding Source: Capital Budget Funds

8. Furnishing 5'4" and 5'5" American Darling Complete Fire Hydrants

Estimated Cost:

\$1,000,000.00

Percentage Goal Justification:

Does not lend itself to SLDBE participation because product is a sole source item shipped directly from the

manufacturer.

Funding Source: Capital Budget Funds

One time purchase only, 0% SLDBE Participation, no renewal options.

9. Purchase of Replacement Transformers T2 and T3 at the Carrollton Water Treatment Plant

Estimated Cost:

\$500,000.00

Percentage Goal Justification:

Does not lend itself to SLDBE participation because product is a sole source item shipped directly from the

manufacturer.

Funding Source: Board Funds

Renewal Contracts

Pursuant to the Operations Committee request for SLDBE compliance on contracts involving renewals, please find subject information.

First and Final Renewal, 30% DBE Participation.

10. Furnishing Paper Products and Janitorial Supplies

Renewal Cost:

\$95,864.50

Prime Contractor:

Assorted Products, Inc.

SLDBE Subcontractor:

West Bank Paper and Janitorial Supplies

Funding Source: S&WB Operating and Maintenance Budget.

The DBE participation goal is 30.00%. The DBE participation achieved is 30.60%.

ITEM #4

Final Acceptance Contracts with DBE Participation

Contract #3692 – Restoration of Existing Gravity Sewer Main by Excavation and Replacement from Manhole to Manhole and Point Repairs at Various Sites throughout Orleans Parish

The Prime Contractor is Fleming Construction Co., LLC.

The DBE participation goal is 36%. The DBE participation achieved is 64.50%.

The Economically Disadvantaged Business Program recommends that the SLDBE participation on subject contract be approved for final acceptance.

AUTHORIZATION FOR THE INTERIM EXECUTIVE DIRECTOR TO EXECUTE AN AGREEMENT WITH ENTERGY NEW ORLEANS (ENO) FOR THE PAYMENT OF TEMPORARY RELOCATION AND DE-ENERGIZING OF ENO'S ELECTRIC DISTRIBUTION FACILITIES ALONG AND ADJACENT TO THE VICINITY OF THE LOUISIANA AVENUE PHASE SELA PROJECT (CLAIBORNE TO CONSTANCE)

WHEREAS, the U.S. Army Corps of Engineers awarded a contract for the construction of the Louisiana Avenue Phase SELA Project (Claiborne to Constance) this summer; and

WHEREAS, in order for the project to move forward the Sewerage and Water Board of New Orleans has pledged to the U.S. Army Corps of Engineers that it will provide payment to ENO for the cost of temporary relocation and de-energizing of ENO's electric facilities in the right-of-way of the proposed SELA project.

NOW THEREFORE, BE IT RESOLVED that the Interim Executive Director is hereby authorized to execute on behalf of the Sewerage and Water Board of New Orleans an agreement with Entergy New Orleans, approved by Special Counsel, for the payment of \$1,416,504.94 as costs estimated for temporary relocation and de-energizing of ENO's electric distribution facilities and each de-energizing project in the right-of-way of the Louisiana Avenue Phase SELA Project (Claiborne to Constance).

I, Robert K. Miller, Interim Executive Director,
Sewerage and Water Board of New Orleans, do hereby
certify that the above and foregoing is a true and
correct copy of a Resolution adopted at the Regular
Monthly Meeting of said Board, duly called and held,
according to law, on May 21, 2014.

ROBERT K. MILLER, INTERIM EXECUTIVE DIRECTOR SEWERAGE AND WATER BOARD OF NEW ORLEANS

AGREEMENT

(Louisiana Avenue Phase)

Claiborne to Constance

This Agreement (the "Agreement") is entered into this day of	2014 (the
"Effective Date") by and between Entergy New Orleans, Inc., a Louisiana	corporation (the
"Company"), and Sewerage and Water Board of New Orleans, Inc., a public	corporation and
instrumentality of the City of New Orleans (the "SWB").	

WHEREAS, in connection with flood control projects to be undertaken by the U.S. Army Corps of Engineers ("COE") in New Orleans (the "Flood Control Project"), the SWB has requested the temporary relocation and de-energizing of the Company's electric distribution facilities (the "Louisiana Avenue Facilities") along, adjacent to and in the vicinity of Louisiana Avenue as generally described on Exhibit A (the "Relocation Project");

WHEREAS, during the course of the Flood Control Project and after the initial relocation of the Louisiana Avenue Facilities, the SWB may request from time to time that the Company temporarily de-energize and ground the Louisiana Avenue Facilities, as relocated (each a "De-energizing Project"); and

WHEREAS, the Company is willing to undertake such temporary relocation and deenergizing of the Louisiana Avenue Facilities, and the SWB is willing to pay for such work, in each case subject to and upon the terms and conditions contained herein.

NOW, THEREFORE, in consideration of the mutual covenants, representations, warranties and agreements made herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Company and the SWB, intending to be legally bound, agree as follows:

- 1. The Company agrees that it shall conduct the engineering work, design work, procurement of materials, construction and relocation of the Louisiana Avenue Facilities in order to complete the Relocation Project. The SWB acknowledges that the description of the Relocation Project is general in nature and is based on the information provided by the COE with respect to the Flood Control Project and many factors, both known and unknown, may impact the performance of the Relocation Project (and thus the Reimbursable Costs (as defined below) for the Relocation Project).
- 2. Upon not less than __ (__) days prior written request from the SWB for a Deenergizing Project, the Company shall conduct the engineering work, design work and procurement of materials, construction, temporary relocation and de-energizing of its facilities and installation of grounds for such De-energizing Project.
- 3. The SWB shall reimburse the Company for all costs and expenses incurred in connection with or arising from acquiring the materials, providing the services and performing the work as provided hereunder including without limitation material costs, labor costs, labor

cost adders, costs associated with third party vendors, costs associated with the procurement of permanent or temporary immovable property rights, costs associated with securing all necessary approvals, taxes and overheads (collectively, the *Reimbursable Costs*"). As of the Effective Date, the estimated Reimbursable Costs are One Million Four Hundred Sixteen Thousand Five Hundred Four Dollars and 94/100 (\$1,416,504.94) for the Relocation Project and De-energizing Project. The estimated Reimbursable Costs for the Relocation Project includes the estimated cost and expenses that will be required to return certain of the Louisiana Avenue Facilities back to their original and permanent locations upon completion of the Flood Control Project. The SWB acknowledges that these estimated Reimbursable Costs are estimates only and that many factors, both known and unknown, may impact the Relocation Project and each De-energizing Project. Therefore, the SWB acknowledges that the actual cost of the Relocation Project and each De-energizing Project may be more than the estimates provided herein and that the SWB shall be responsible for any amounts in excess of such estimates, as provided herein.

- 4. With respect to the Reimbursable Costs for the Relocation Project, the SWB shall pay the Company as follows:
- (a) Fifty percent (50%) of such Reimbursable Costs within ten (10) days of the Effective Date;
- (b) Twenty five percent (25%) of such Reimbursable Costs (plus any actual Reimbursable Costs for the Relocation Project incurred by the Company which are in excess of the estimated Reimbursable Costs for the Relocation Project) within ten (10) days after receiving written notice from the Company that it has completed fifty percent (50%) of the Relocation Project (as determined by the Company in good faith); and
- (c) Twenty five percent (25%) of such Reimbursable Costs (plus any actual Reimbursable Costs for the Relocation Project incurred by the Company which are in excess of the estimated Reimbursable Costs for the Relocation Project) within ten (10) days after receiving written notice from the Company that it has completed the Relocation Project.
- 5. The Company, in its sole reasonable discretion, shall determine the commencement date and frequency for invoicing the SWB for Reimbursement Costs for each De-energizing Project. The SWB shall remit payment to the Company in accordance with the instructions set forth on each such invoice.
- 6. If the SWB fails to make any payment under or pursuant to this Agreement, the Company, in its sole reasonable discretion, may immediately cease all activity on the Relocation Project and/or refuse any request for a De-energizing Project, in each case until all outstanding payments have been made. The Company shall resume activity on the Relocation Project within 30 days of the date that full payment of all outstanding invoices is received, subject to the availability of the Company's crews and equipment. To the fullest extent allowed by law, the SWB fully releases and holds harmless the Company for any and all damages, losses, claims and cause of action, including but not limited to damages associated with loss of revenues, loss of product, special, consequential and indirect damages, loss of Federal funding, and third party claims for damages resulting from such cessation of any work

contemplated hereunder or any delay in resuming any such work. Unless otherwise indicated on any invoice or notice, all payments shall be made by wire transfer of immediately available funds to the account (or accounts) of the Company pursuant to the Company's instructions. Except as provided herein, it is expressly understood that the SWB shall be responsible for making timely payments of invoices irrespective of the completion of the Project.

- The Company reserves the right to terminate this Agreement for any of the following reasons: (i) any Federal, State or local government or governmental agency takes any action that, in the opinion of the Company, adversely affects the Flood Control Project or the ability of the SWB to pay the Reimbursable Costs, (ii) the City Council of the City of New Orleans takes any action that, in the reasonable opinion of the Company, materially and adversely modifies, alters or amends any of the terms and conditions of this Agreement or adversely affects the intent of this Agreement that the Company fully recover all Reimbursable Costs as provided herein, (iii) there is an event or occurrence that materially and adversely affects the SWB's ability to pay the Reimbursable Costs, or (iv) the SWB fails to comply with any material term of this Agreement. Termination of this Agreement shall be effective one day after the Company has delivered written notice to the SWB of the termination of the Agreement. In the event of termination, the Company shall use reasonable efforts to minimize any additional costs, but the SWB shall remain responsible for all Reimbursable Costs incurred by the Company through the effective date of termination. In addition, the SWB shall be responsible for any additional charges, including but not limited to, cancellation charges, demobilization charges, charges associated with the ordering and purchasing of materials incurred by the Company, irrespective of termination. To the fullest extent allowed by law, the SWB fully releases and holds harmless the Company for any and all damages, losses, claims and causes of action, including but not limited to damages associated with loss of revenues, loss of product, special, consequential and indirect damages, loss of Federal funding, and third party claims for damages resulting from the Company's termination of this Agreement.
- 8. It is expressly understood that this Agreement confers no ownership rights or interest to the SWB in the Louisiana Avenue Facilities, any facilities constructed, installed or removed by the Company or any materials acquired by the Company pursuant to this Agreement.
- 9. All notices, requests, consents and other communications hereunder shall be in writing and shall be dispatched by nationwide overnight courier service, such as (without limitation) FedEx, or by United States Certified Mail, Return Receipt Requested, postage prepaid, addressed to the parties as follows:

To the Company:	Entergy New Orleans, Inc. 1600 Perdido St. New Orleans, LA 70161 Attn: Telephone:
To THE SWB:	Sewerage and Water Board of New Orleans 625 St. Joseph Street

Attn:	
Telephone:	

Notices under this Agreement shall be deemed given upon the earlier of the date of delivery or the date upon which delivery is refused. Any changes in the names or addresses set out in this provision shall be through notice in conformity with the requirements of this provision.

- 10. Except as expressly allowed above, no waiver, addition, deletion, or modification of any provision contained in this Agreement shall be binding unless in writing and signed by duly-authorized representatives of both parties. Once an amendment to this Agreement is made, it shall be deemed incorporated as of its effective date, unless expressly stated to the contrary in the amendment.
- 11. The SWB shall not assign this Agreement in whole or in part without the prior written consent of the Company which consent may be withheld for any reason and any such purported assignment shall be null and void and, at the Company's option, will constitute a material breach of this Agreement. No assignment of this Agreement, even if consented to by the Company shall relieve the SWB of its responsibilities under this Agreement. Any assignee of the SWB must agree in writing to all terms and conditions of this Agreement.
- 12. The failure of either party to insist upon or enforce, in any instance, strict performance by the other of any of the terms of this Agreement or to exercise any rights herein or therein conferred shall not be construed as a waiver or relinquishment to any extent of its rights to assert or rely upon any such terms or rights on any future occasion.
- 13. It is agreed that if any clause or provision of this Agreement is held by any court of competent jurisdiction to be illegal or void, the validity of the remaining portions and provisions shall not be affected, and the rights and obligations of the parties shall be enforced as if this Agreement did not contain such illegal or void clauses or provisions.
- 14. Should it become necessary for either party hereto to engage in legal proceedings for the purpose of enforcing either this Agreement or for the purpose of recovering damages sustained due to the breach of this Agreement, such party shall be entitled to reimbursement by the prevailing party in any such legal proceeding for costs, attorneys' fees and any other reasonable expenses incurred in connection with those legal proceedings, irrespective of presentment of demand.
- 15. The provisions of this Agreement that by their nature continue after the expiration or termination of this Agreement shall survive any such termination or cancellation, including all obligations or rights that exist as a result of an event or the failure of an event prior to or at the time of expiration or termination of this Agreement.
- 16. The SWB represents and warrants that it has all requisite power and authority to execute, deliver and perform its obligations under this Agreement and, by proper action in accordance with all applicable law, has duly authorized the execution and delivery of this

Agreement and the performance of its obligations hereunder including without limitation its obligation to pay all Reimbursable Costs.

- 17. In the event the Relocation Project or any De-energizing Project requires the Company to relocate its facilities, the SWB shall provide or obtain all necessary rights of way (including, without limitation, highway and railroad permits) including obtaining rights of way from any third party who owns or has rights with respect to the immovable property which may be affected by such relocation. The right of way instrument shall grant and provide the Company and its successor and assigns a right of way for the location, construction, reconstruction, improvement, repair and maintenance of the Company's electric facilities. The Company shall provide its right of way instrument to the SWB and the SWB shall deliver such instruments, properly executed, to the Company prior to the relocation of its facilities.
- 18. The Company and SWB expressly agree that the rights and obligations expressed herein pertain only to the Louisiana Avenue Facilities Relocation Project and each De-energizing Project, and that any other or future projects are beyond the scope of this Agreement. The Company and SWB further agree that nothing in this Agreement shall be interpreted as restricting the Company or the SWB from seeking legislative, judicial, or other clarification of applicable or potentially relevant law's pertaining to financial responsibility for projects such as those undertaken pursuant to this Agreement.

May 5, 2014

Operations Committee Sewerage and Water Board of New Orleans New Orleans, Louisiana

Dear Directors:

Subject: Customer Account Management System Replacement Status

At the February 2014 committee meeting cycle, staff reported their methodology in selecting the vendor that most met the needs of Sewerage & Water Board for the replacement of our Customer Account Management System. Cogsdale Corporation was the preferred choice of the Project Team based on usability, project approach and additional available modules.

The Interim Executive Director was authorized to enter into contract negotiations with Cogsdale Corporation, assisted by Langham and Associates, a subcontractor to Xerox, the current information systems contractor to the Board. These negotiations have been completed and there are 3 separate agreements which will be executed shortly:

- 1. Statement of Work
- 2. Support and Maintenance Agreement
- 3. License Agreement

The Project Team will be housed at 830 Julia Street, which is owned by the City of New Orleans. The City has agreed to lease the property to the SWB for \$3,790 per month for 30 months, with an option to renew. The furniture installation at the site is nearly complete and the telecommunications and network infrastructure is scheduled to be installed in early May 2014.

A kickoff meeting will take place on or about May 15, 2014.

Utility Services Administrator Revenue & Customer Service

May 5, 2014

Operations Committee Sewerage and Water Board of New Orleans New Orleans, Louisiana

Dear Directors:

Subject: Customer Service Results through March 2014

This report is intended as a consolidated report of customer service results, including key activities, indicators of metric results, and a status update on implementation of the Customer Service Improvement plan.

<u>Customer Service Improvement Plan Status Update</u>. Following is an update of the implementation status for the Customer Service Improvement Plan.

	Plan	Implementation Status		
I.	Provide improved customer account management and billing capabilities			
A.	Replace existing CAM system.			
	Staff will replace the existing in-house developed billing and collection system with packaged software built upon industry standard best practices.	In Progress. The project remains on schedule. Contract negotiations with Cogsdale Corporation were finalized in April. We have secured the property at 830 Julia Street to house the Project Team. Furniture and equipment is being installed and we should be ready for the project kickoff on or near May 15 th .		
В.	Implement automated meter reading technology.			
	Staff will move from manual meter reading on a monthly cycle to automated meter reading on a multiple-times per day cycle, allowing customers to monitor their usage online and allowing for underground leaks to be more readily identified.	In Progress. The Project team has reviewed the 10 responses received and is currently drafting the RFP document.		
II.	Reduce the volume of calls by increasing the perceived accuracy of the bills.			
A.	Continue focus on obtaining readings to avoid estimates.			
	Staff will maintain the marked improvement achieved over the past 18 months in obtaining meter readings for approximately 98% of all	Completed. During the month of March 2014, meter reading staff maintained a high percentage of actual readings, with a reading on 98.3% of all		

	accounts,	meters,
В.	Improve accuracy of readings	
	Although the quantity of readings has improved, the quality of some of the readings has not, resulting in either rechecks or customer complaints. Staff will more closely monitor those meter readers that are experience accuracy issues.	Complete. The re-sequencing of residential meter reading routes is complete. With the exception of a few routes that could not be re-routed, all residential routes will be read in the same sequence. This will enhance efficiency by ensuring that no meter is skipped and the Meter Reader is at the correct address reading the correct meter.
C.	Ensure meter reading and billing edits are worked diligently.	
	An unintended consequence of working to increase the number of readings has been a decrease in the number of days between reading and billing. This has resulted in bills being mailed with a lesser amount of review than previously took place. Staff will immediately work to ensure an adequate number of days occur between reading and billing to allow for full review of meter reading and billing edits.	In Progress. Billing staff is finalizing the flowcharts of the bill review and bill adjustment processes. This will enable us to see where our procedures may be lacking in efficiency with regards to billing edits and internal controls. The finalized flowchart document will be of great value in establishing a better business model as we implement the new billing system.
D.	Retrain billing clerks on proper review of meter reading and billing edits.	
	There has been a significant decrease in the experience level of customer service clerks and supervisors due to employee retirements and turnover. Likewise, the training center for customer service representatives had been shut down following Hurricane Katrina. Staff will work to immediately re-open and re-staff the customer service training center and provide remedial training.	In Progress. We were not successful in appointing a dedicated trainer for our Customer Service and Billing clerks. As we are involved in more training provided by our Personnel Department, this may not be feasible. We have asked each supervisor to evaluate their staff's performance and provide individual training as needed.
E.	Re-staff Analyst Level Positions	
	The Customer Service Department is budgeted for three analyst positions, but currently has only two analysts on staff. This has left the responsibility for process analysis to supervisors who are currently over-committed in resolving particularly difficult customer concerns. Requisitions for one analyst positions will be submitted shortly and they will be among the first trained at the training center.	Completed. The new team member began working on July 1, 2013.

III.	Improve the customer service experience when questioning a bill and resolve more issues during the first call.	
A.	Re-emphasize and retrain employees on	
	courtesy and accountability.	
	Complaints about perceived rudeness by customer service representatives are a serious concern. Management will meet with employees to re-emphasize the courteous manner in which customers are to be treated and the accountability for the representatives to resolve customer concerns. Management will also bring in outside training for representatives on dealing with customers.	Completed. All Revenue & Customer Service staff will participate in the upcoming Business Training Skills sessions to be conducted by Debra Gould & Assoc. and Cathy Harris Consulting and Training.
<u>В.</u>	Reduce the amount of time spent by	
	customers waiting for assistance.	
	The amount of calls abandoned by customers prior to being served has increased significantly in recent months. Likewise, the number of customers waiting in the lobby for service has been quite large on some days. Management will review staffing levels at all workdays and shifts to ensure appropriate matching to the customer call and walk-in volume.	In progress. During the month of March the percentage of calls abandoned decreased considerably from 28.5% to 19.2%. The average call wait time also decreased from 3 minutes and 17 seconds to 2 minutes and 13 seconds. Our Cal Center Managers and staff have worked diligently to improve performance. We attribute much of ou improvement to the team embracing the concept of a 'shared destiny'. Daily performance results are now posted on the call center board. Success is celebrated and deficiencies are addressed immediately.
C.	Provide a more effective appeals process within Sewerage and Water Board.	
	It is crucial to resolve customer complaints within Board processes so that customers do not feel that it is necessary to take their complaints to board members, elected officials, and executive management. Staff will clearly define and communicate the appeals process to customers. Also, Customer Service management will ensure that the Special Accounts Sections will be consistently used for customer calls to elected officials and board members.	In progress. We are developing updated procedures for our appeals process to make it easier for customers to be granted an appeal and to make certain the proper controls are place to follow up with customers after a hearing decision Our goal is to address all complaints before it get to the level of a customer hearing.
D.	Improve coordination between Customer Service and Networks departments.	
	One of the most frustrating experiences for customers occurs when there are "disconnects" between customers requests for repairs to occur and how the Board responds to those requests. It	In progress. Customer Service and Networks staffs have collaborated on a check list/script for all customer service agents to use when discussin repair issues. The script has helped call center

	is crucial to ensure that high priority customer concerns are resolved on a timely basis and that representatives have reliable information about when repairs will occur or have been completed.	agents improve their responses to difficult customer inquiries. Also, as we add new programs and change procedures, having a script ensures our agents know exactly what to say. We will be adding information on our new Plumbing Assistance Program to the script this month.
E.	Establish feedback processes for customer.	
	Staff will develop a feedback process for every walk-in and telephone customer contact to provide a method for immediate feedback to management about the customer experience. Staff will also develop a comprehensive survey instrument for customers who may not have had occasion to contact the Board.	In progress. The survey results were favorable and we intend to continue with this process twice a year going forward.
IV.	. Evaluate possible changes to the leak	
	adjustment policy.	
A.	Examine statutory and policy limitations.	
	Customers experiencing high bills are frequently dismayed that water lost through leaks on their service lines is billed without adjustment to volume or rate, while water main and hydrant leaks are allowed to remain unrepaired for long periods of time. The leak adjustment policy of Sewerage and Water Board is less "forgiving" than that of many other large metropolitan water agencies. Staff proposes to study the statutory and policy limitations and alternatives for consideration by the Board.	In progress. After a lengthy delay, staff is developing draft changes to the leak adjustment policy for consideration by the Operations Committee to improve customer fairness and while minimizing utility revenue impact.

Staff will provide ongoing status updates on the implementation of the Customer Service Improvement Plan at upcoming Operations Committee meetings.

Robert K. Miller

Interim Executive Director

Customer Ratepayers

Objective: Provide Accurate Bills

Goal: Read 98% or more of meters each

more of meters eac

Currently Meeting

Goal: Yes

Process Operating
Within Control Limits:

Trend: Close

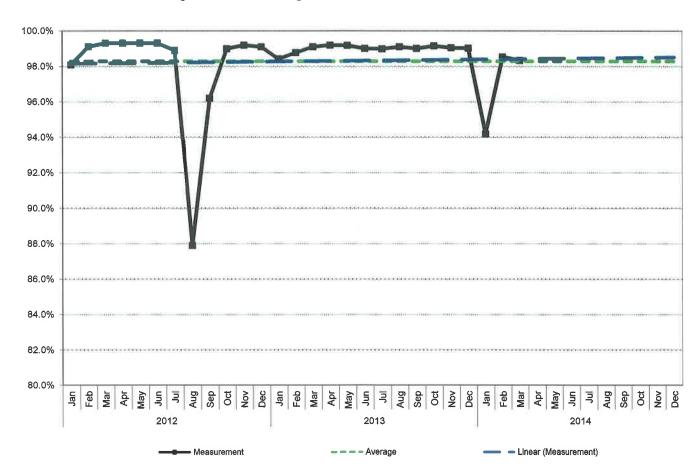

Yes

Analysis

The purpose of the customer billing and collection processes is to collect revenues from customer accounts that are billed according to the service rules and are based upon accurate metered consumption. Obtaining an accurate reading is the first step in that process. Staff has maintained a reading rate near or above the goal since since April 2010 except for two months affected by Hurricane Isaac.

Plans for Improvement

Staff is working to reduce the number of estimated and erroneous readings. Also, the Automated Meter Reading pilot project is also intended to reduce the number of estimated and erroneous readings, as well as to reduce the cost of obtaining a validated reading.

Estimated

Currently Meeting

Goal: No

Process Operating
Within Control Limits:

Yes

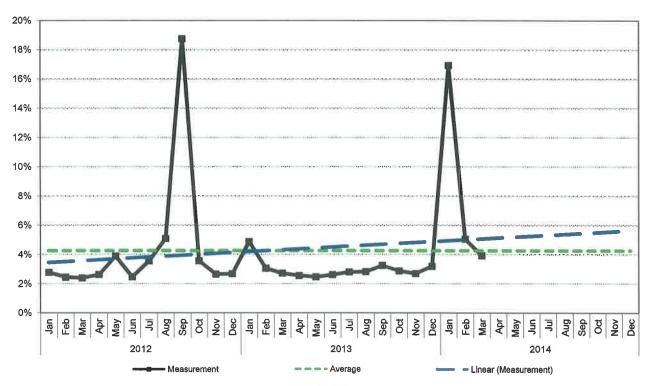

Trend: Close

Analysis

A bill is estimated if the meter is not read by the designated billing date. Bills are also estimated when a meter is read and the reliability of the reading is doubtful and the account is placed on an exception report. If the reading is not verified by the billing date, the bill will be estimated. Spikes in estimated bills usually occur when the Meter Reading department is unable to read a large section of meters during extreme weather.

Plans for Improvement

Current plans are focused on obtaining readings for accounts each month and verifying the reliability of each reading. Future plans will focus on advanced matering infrastructure that allows for readings to be obtained automatically several times daily.

Sewerage and Water Board of New Orleans Investigations from High Bill Complaints as a Percentage of Total Bills

Constituency:
Customer Ratepayers

Objective: Provide Accurate Bills

Goal: Reduce percentage over time

Currently Meeting

Goal: No

Process Operating
Within Control Limits:

Trend: Unfavorable

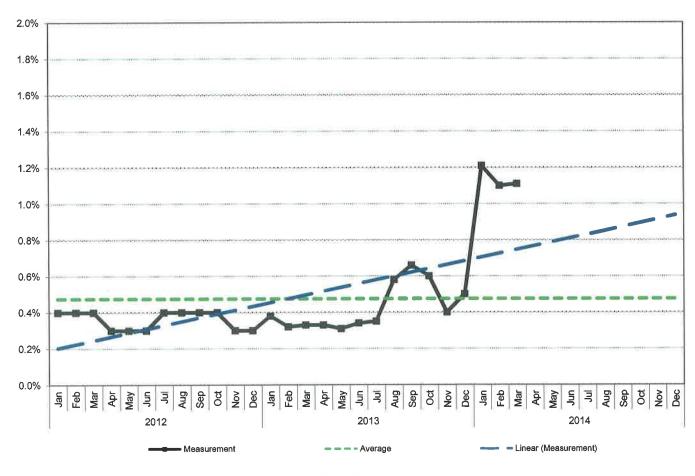

No

Analysis

Customers request an investigation about their usage when the bill is higher than normal amounts. The higher billed amount may be due to: a leak; one or more estimated readings followed by an actual reading; an erroneous meter reading; or increased water, sewer, or sanitation rates. Before an adjustment can be made, an inspection of the meter and service line must be performed.

Plans for Improvement

Staff is working to reduce the number of estimated and erroneous readings. Also, the Automated Meter Reading pilot project is also intended to reduce the number of estimated and erroneous readings, as well as to reduce the cost of obtaining a validated reading.

Objective: Provide Timely Information and Respond

Promptly to Requests

Goal: Reduce

Triggers of Customer

Calls

Currently Meeting

Goal:Yes

Process Operating Within Control Limits: Yes

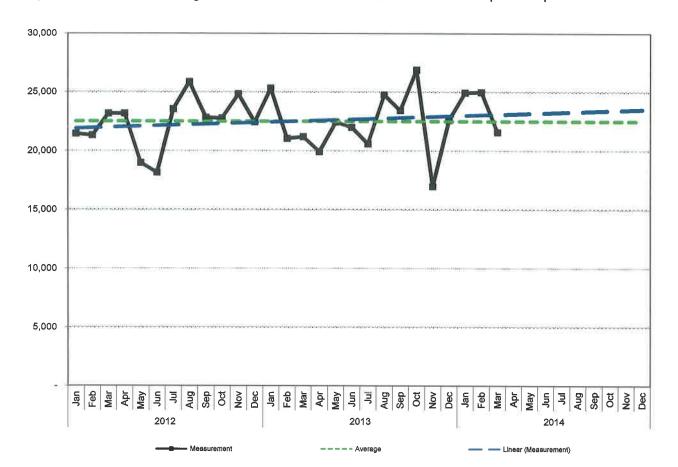

Trend: Close

Analysis

Customers contact the Sewerage and Water Board to start or end service; to request information about their bill; to report concerns about their water service, sewer connection, street flooding, or solid waste sanitation service; and other matters. The Call Center for emergency repairs is operated continously, while the Call Center for billing and non-emergency issues is operated from 7 AM to 7 PM. Call volumes can vary significantly month to month.

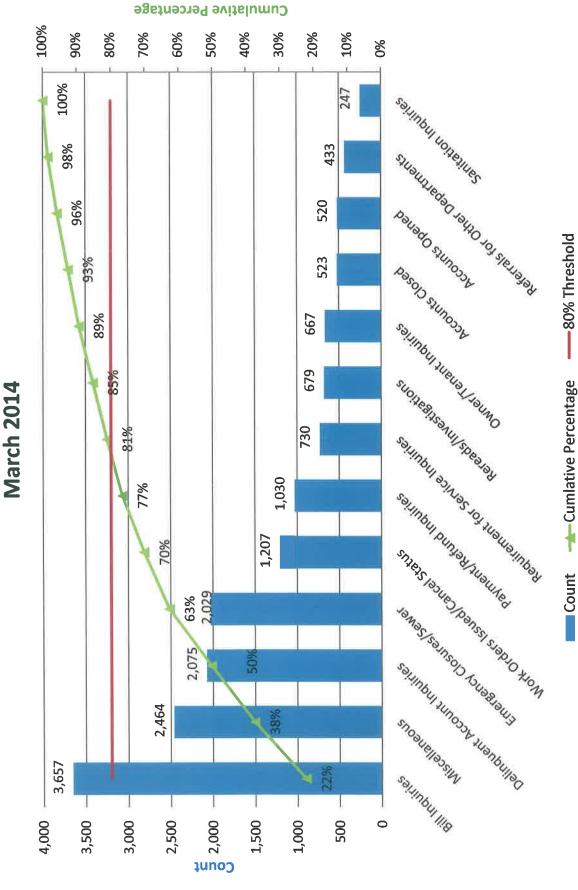

Plans for Improvement

Staff is analyzing the events that trigger calls in order to determine methods to reduce the volume. Short term plans for improvement will focus on creating more efficient "scripts" for handling routine call matters. Longer term plans will focus on reducing the overall call volumes with interactive voice response capabilities.

Sewerage and Water Board of New Orleans Calls Abandoned by Customers as a Percentage of Total

Constituency:

Customer Ratepayers

Objective: Provide Timely Information and Respond Promptly to Requests

Goal: Respond to calls with less than 5% abandoned

Currently Meeting

Goal: No

Process Operating
Within Control Limits:

Trend: Unfavorable

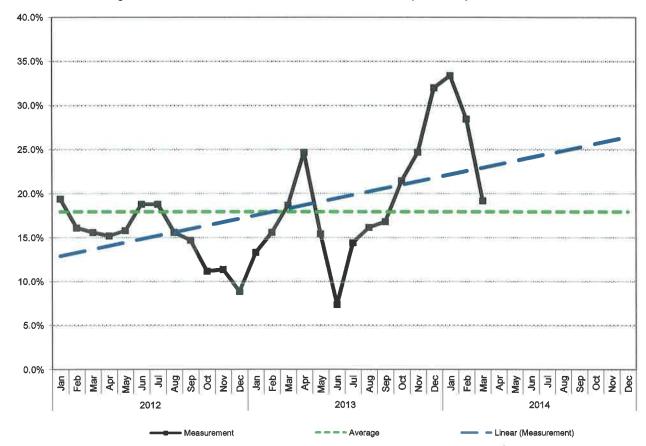

No

Analysis

Customers abandon their call after waiting for an amount of time considered inconvenient, which varies from customer to customer. Some portion of the volume of abandoned calls is from customers calling and hanging up on multiple occasions. Staff is addressing this issue as a top priority. The telephone system was recently upgraded. Since the upgrade the the Telephone Center has experienced malfunctions. Staff and AT&T are dedicated to correcting these problems.

Plans for Improvement

In order to resolve the significant increase in abandoned calls, additional employees have been hired and are being trained. Call rollover time has been reduced from 3 minutes to 20 seconds. Medium term plans for improvement will focus on creating more efficient "scripts" for handling routine call matters. Longer term plans will focus on reducing the overall call volumes with interactive voice response capabilities.

Objective: Efficient use of resources in providing

Goal: None established

services

Currently Meeting Goal: Not Applicable

Process Operating Within Control Limits: Close

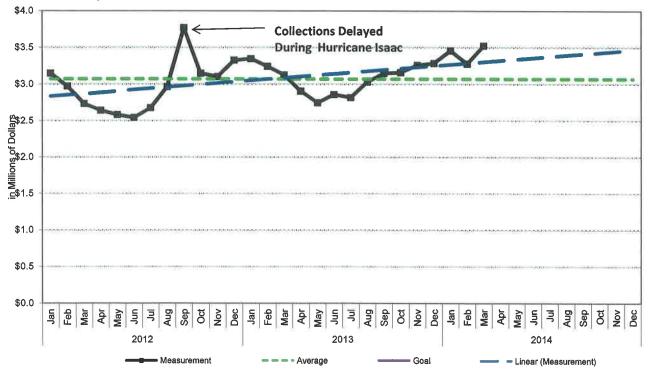

Trend: Unfavorable

Analysis

Water and sewer accounts receivable that are 30 to 120 days old are handled by internal staff using service disconnection. When those accounts are turned-off and final bills sent, the remaining balances after 30 days are sent to a collection agency. The uncollectable balances for 2007 and 2008 were higher than normal due to accounts that remained open for vacated facilities and were written off in 2011 and 2012, .

Plans for Improvement

It appears that the higher post-Katrina accounts receivable balances have been resolved through standard collection practices and that annual collection rates now exceed 98% of annual billings. Staff intends to use standard process improvement methods to continue collection practices pending implementation of new billing and collection system.

Description: Establishes and maintains an effective balance between long-term debt, asset values, operations and maintenance

expenditures, and operating revenues

Constituency:
Customer Ratepayers

Objective: Efficient use of resources in providing services

Goal: None established

Currently Meeting
Goal: Not Applicable

Process Operating Within Control Limits: Yes

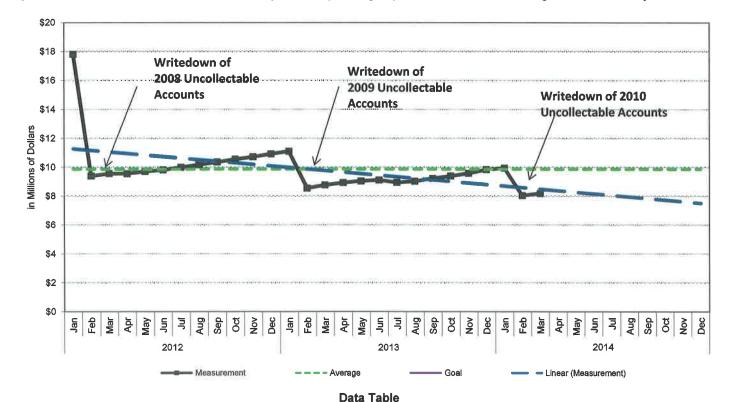

Trend: Favorable

Analysis

Water and sewer accounts receivable that are 120 days and older are handled by a collection agency. When those accounts remain uncollected after three years, the balances are written off as part of an annual process. The uncollectable balances for 2007 and 2008, which were written off early in 2011 and 2012, were higher than normal due to accounts that remained open post-Katrina for residences and businesses but were not occupied.

Plans for Improvement

It appears that the higher post-Katrina accounts receivable balances have been resolved through standard collection practices and that annual collection rates now exceed 98% of annual billings. Staff intends to use standard process improvement methods to continue collection practices pending implementation of new billing and collection system.

Delayed	Next Steps	Continue focus on obtaining readings to avoid estimated bills. Improve accuracy of readings. Improve efficiency of meter reading routes. Continue training on proper review of meter reading and billing edits. Reduce call waiting time. Improve coordination between Customer Service and Networks departments. Continue walk-in customer service survey. Implement telephone customer service survey. Implement telephone and report improvement results.	Increase in funding completed January 2013. Focus on improved customer awareness.	Allocation of funding completed January 2013. Focus on improved customer awareness.	Staff recommended that water and sewer charges for leakage be charged at fifty percent of the regular rate for one occasion of leakage lasting not more than two regular billing periods every two years. These charges are being reviewed for compliance with existing legislation and interpretation by the state attorney general.	Staff recommended that the Board not adopt a waiver of these service charges based on means testing and that the overall effectiveness of the service assurance program be reviewed prior to reconsideration of this matter.
Not Started	Status	On target. Customer Service Improvement Plan updated and reported to Operations Committee monthly.	Completed. Funding for bill payment assistance through the Water Help program increased from \$60,000 to \$240,000 in January 2013.	Underway. Program provides up to \$250 for plumbing repairs on the customer's portion of the service line.	Delayed. Recommendations developed for consideration by Board of Directors currently under review by Legal Department.	Completed. Recommendations accepted by Board of Directors in July 2013.
On Target	Target Date	Ongoing	January 2013	June 2013 original March 2014 revised	March 2013 original June 2014 revised	June 2013
Status Key	Commitment	E. Improve efficiency and reliability of Customer Service processes. Reduce the volume of calls by increasing perceived accuracy of bills. Ensure meter reading and billing edits are worked diligently. Improve the customer experience when questioning a bill and resolve more issues during the first call. Provide more effective appeals process.	A. Provide additional funding for bill payment assistance through the Water Help program.	B. Expand Water Help program to provide assistance with plumbing repairs.	C. Pursue legistative change to allow adjustments for water lost through customer leaks.	D. Evaluate waiver of service charges based on means testing for qualifying low-income elderly and disabled customers.

Delayed	Next Steps	Because of the significant revenue loss associated with a reduction in late payment fees and disconnect fees, staff recommended that consideration of changes to these fees be deferred until after the first full year of revenues have been received from the new rates in order to ensure that revenues from the new rates are sufficient to allow for this offsetting reduction in fees while still accomplishing other financial objectives.	Process documentation, analysis, and improvement objectives combined with cost reduction are included in several senior management goals. Document and report improvement results,	Continue work with property administrators at municipal facilities to identify opportunities for reduced consumption. Coordinate with revenue-producing agencies to pursue legislative relief from burdensome requirements for free service.	Determine feasibility of performing street drainage maintenance work on a fee-for-service basis, subject to identification of funding requirements, establishment of a funding stream, and gaining necessary legislative authorizations.	Perform analysis to identify additional tactics to improve performance in this area.
Not Started	Status	On target. Recommendation to maintain existing schedule of fees pending review of first full year of revenues approved by Board of Directors in July 2013.	On target. Training program developed and delivered for pilot group of senior management. Performance measures being reviewed and developed.	On target. Quantity of free service reduced from 2010 to 2013 by 11.0%. School system billing initiated for consumption beginning July 2013. No changes to related laws were initiated for 2014 Louisiana legislative session.	A joint team of Sewerage and Water Board engineers and Department of Public Works engineers work together in coordination of planning and construction for the FEMA Recovery Roads program.	Plans to improve collections have recently focused on ensuring close compliance with schedules for nonpayment turn-offs. The amount written off as uncollectable has reduced from 10.23% in 2010 to 1.52% in 2013.
On Target	Target Date	March 2013 original June 2013 revised	December 2017	December 2017	Not determined.	Not determined.
Status Key	Commitment	E. Evaluate reduction in late payment fee, disconnect fee, returned check fee, and deposits,	A. Improve operations through performance measures, improved framework, and follow-up reviews to reduce future rate increases.	B, Reduce free water and sewer service provided to municipal accounts by fifty percent from a baseline of 2010 usage.	C. Improve coordination between Sewerage and Water Board and Department of Public Works.	D. Improve ratepayer collections.
	Topic		IV. Operational Reforms
