2. CASH FLOW OVERVIEW

Mr. Grey Lewis, Chief Financial Officer, presented an update on the cash flow situation at the SWB, as it is critical that the SWB maintain sufficient cash flow levels to continue operations, and meet our bond requirements. Our 2021 water and sewer cash flow levels are comparable to our 2020 levels at the end of February, however there are no rate increases in 2021 in both Water and Sewer, increased delinquent accounts attributable to the COVID situation, and an extended deadline for Ad Valorem tax revenue for Drainage contributing to lower monthly cash collections. Management continues to strive to reduce expenses and manage cash to meet our financial requirements. Currently, we are on track to meet Days Cash on Hand and the Debt Service Coverage Requirements. Debt service for 2021 was reduced through the 2021 Bond Refunding which closed March 3 and provided savings for key capital initiatives based on the release of debt service reserves.

Mr. Lewis also gave an overview presentation on the Procurement Procedure Manual, that will focus on key updates:

- **Single roadmap** for various rules for procurement of construction projects, professional services, and goods and services
- **Provide flexibility and efficiencies** for user departments while retaining proper controls and oversight of purchasing
- **Provide consistent terminology** and language of purchasing to facilitate communication among departments

- **Reduce redundancy** in forms used and to provide a single “Requisition form”
- **Provide clear expectations** for currently undefined and undocumented processes such as an expedited change order request
- **Streamline approval process** for contract change orders and amendments to align with ED approval of contracts less than \$1m

Joint Infrastructure Recovery Request

Ratification of Award of Emergency Contract for Turbine 4 Repairs

WHEREAS, on October 25, 2020, Turbine 4, which has been serving as the primary turbine for daily operations and rain events, tripped offline unexpectedly, further risking operational effectiveness of the Sewerage and Water Board of New Orleans (SWBNO) infrastructure due to the preexisting impairment of SWBNO power generation capabilities because of the age, condition and additional prior damage to Turbines 1, 3 and 5; and

WHEREAS, when Turbine 4 tripped offline on October 25, 2020, SWBNO crews onsite began troubleshooting various systems, and it was determined that the cause of the trip was related to a malfunction of the turbine speed sensors; and

WHEREAS, further investigation into the cause of the event and extent of damage to Turbine 4, as well as the repair of the turbine requires the services of an outside contractor familiar with the operation, maintenance and repair of steam turbine generators; and

WHEREAS, the loss of Turbine 4 has resulted in the loss of up to 20 megawatts of 25 Hz power generating capacity, thus reducing total 25 Hz power generation redundancy; and

WHEREAS, the failure to self-generate 25 Hz power places at risk the operation of the Board's sewerage, water and drainage system that provide essential sanitary sewerage services, potable water services, and stormwater drainage services upon which the citizens of New Orleans rely; and

WHEREAS, time is of the essence to determine and address the cause(s) of the Turbine 4 trip event, prevent further damage, make all necessary repairs, and where necessary, repair or improve other system components to fortify the remaining 25 Hz power generation and distribution facilities to provide as much system reliability and redundancy as practicable during the Turbine 4 outage;

NOW THEREFORE, BE IT RESOLVED by the Sewerage and Water Board of New Orleans that an emergency contract for the repairs of Turbine 4 is hereby accepted, and a contract is awarded therefore to **Alfred Conhagen, Inc. of Louisiana**, in the total amount of **\$1,007,714.67**.

Procurement Procedures Manual: Highlights

Finance & Administration Committee, April 14, 2021
Grey Lewis, Chief Financial Officer

Procurement Manual: Purpose

- **Single roadmap** for various rules for procurement of construction projects, professional services, and goods and services
- **Provide flexibility and efficiencies** for user departments while retaining proper controls and oversight of purchasing
- **Provide consistent terminology** and language of purchasing to facilitate communication among departments
- **Reduce redundancy** in forms used and to provide a single "Requisition form"
- **Provide clear expectations** for currently undefined and undocumented processes such as an expedited change order requests
- **Streamline approval process** for contract change orders and amendments to align with ED approval of contracts less than \$1m

Procurement Manual: Summary of Major Changes

Process Component	Current	Proposed	Reason for Change
Formal Sealed Bids ('Large Projects'): Requisitions forms	Three forms are currently utilized, with separate but parallel tracks: 1) contract routing form (to review front end specifications); 2) contract data form (establish budget authority within capital program number); and 3) job number form (to assign a job number). An additional process is utilized for Construction Review Committee (CRC) and Staff Contract Review Committee (SCRC) agenda and approval.	Combine all three forms into One approval process via the single "Requisition form". Continue with CRC/SCRC approval process as a parallel step.	Reduces number of forms, which have redundant signature requirements.
Change orders Approval	All change orders of any value are sent to the Board for approval. However, there is no current written policy or resolution requiring this.	Create 3 tiers of change orders, giving ED authorization up to a specified amount or percentage of the contract, based on the original size of the contract and considering cumulative amounts.	This streamlines the process for management and provides a more meaningful formalized process for Board members.
Expedited change order procedures	In the event that field work on a project needs to be done as soon as possible, the General Superintendent or other Leadership team member writes a memo to contractors to proceed on a case by case basis while price is being established.	Formalized expedited approval process that defines the signature authority for expedited approval. Thresholds are set at the same as change order threshold for ED signature.	This process is currently undefined.
Micropurchases	Current SWB policy allows for purchases under \$1,000 to be paid on a Purchase Voucher (PV) form (no purchase order required)	Modify threshold of a micropurchase as purchase <\$10,000 and permitted to be paid on a PV (no purchase order) required and <u>consistent with current policy a Leadership team member is required to approve the PV and ensure item is within the scope of a micropurchase and nonrecurring)</u>	Consistency with federal and state statutes
Informal Quotes ('Small Purchases'): Requisition Forms	Budget department is sporadically involved in the review/approval process	Budget and PDU (if applicable) sign requisition. Budget should work with accounting to assign a job number if needed.	Require budget involvement at the beginning to provide additional oversight

Change Order Approvals

Table 12-1. Contract Change Order Tier Summary

Contract Tier	Change Order Parameter	Signature Requirements
Tier One: Contract Aggregate <\$1,000,000		
Change Order Scenario 1	If a change order is below 10% of the original contract value	Executive Director approves and signs a resolution to formally approve the change and SWBNO Board of Directors is notified during monthly meetings

Tier Two: Contract Aggregate between \$1,000,000 and \$4,999,999.99		
Change Order Scenario 1	If a change order is less than \$250,000 or 20% of the original contract value (whichever is less considering cumulative amount of change orders)	Executive Director approves and signs a resolution to formally approve the change and SWBNO Board of Directors is notified during monthly meetings
Change Order Scenario 2	If a change order or aggregate of change orders exceeds \$249,999.99 or 20% of the original contract value (whichever is less considering cumulative amount of change orders)	SWBNO Board of Directors approves via F&A Committee. Executive Director signs resolution
Tier Three: Contract Aggregate \$5,000,000 and above		
Change Order Scenario 1	If a change order is less than \$500,000 or 10% of the original contract value (whichever is less considering cumulative amount of change orders)	Executive Director approves and signs a resolution to formally approve the change and SWBNO Board of Directors is notified during monthly meetings
Change Order Scenario 2	If a change order or aggregate of change orders exceeds \$499,999.99 or 10% of the original contract value (whichever is less considering cumulative amount of change orders)	SWBNO Board of Directors approves via F&A Committee. Executive Director signs resolution

- There are three tiers of change order approvals as described in Table 12-1.
 - Within each tier, a change order can be considered a standard request (Chapter 12) or an expedited request (Chapter 13).
- Professional services contracts with amendments follow the same three tier system for approval as shown on Table 14-1.

New total	\$ 3,250,000			
Project Completion	\$ 3,250,000			

Next Steps

- Ratify a resolution at the next F&A meeting which recommends approval by the Board of Directors to accept the new process for change orders and amendments as defined in Table 12-1 Contract Change Order Tier Summary and Table 14-1 Contract Amendment Tier Summary
- Training program on Procurement Manual for departments
- Begin using the Procurement Manual

HR/Payroll Report

Areas of focus:

Recruitment,
Classification,
Compensation

Benefits/Pension

Payroll

Employee Relations

Training

SWBNO's Benefits Department manages three separate areas of HR:

1. Benefits Administration
2. Pension Administration
3. Leave Management

Benefits Administration

The Consolidated Omnibus Budget Reconciliation Act (COBRA) requires group healthcare plans covered by COBRA to provide employees and dependents a temporary extension of healthcare coverage, for up to 36-months, after a loss of healthcare coverage. The loss of coverage must result from a qualifying event, such as termination of employment and divorce, and the enrollment period to continue coverage under COBRA is 60-days. The cost for COBRA coverage is significantly higher than the standard premium rate paid prior to COBRA coverage. COBRA rates include both the employee and employer portion of the total premium rate. The group healthcare plan must provide notification of COBRA coverage eligibility to enrolled members and their dependents

Pension Administration

Required Minimum Distribution (RMD) is an IRS rule that requires funds contributed to certain retirement accounts be withdrawn annually, at a calculated amount, starting at age 72 (Age 70½ prior to 2020). There are exceptions to this rule. One exception is the option to delay receiving RMDs until after the member commences retirement with a Qualified Plan.

The Rules & Regulations of the Employees' Retirement System of the Sewerage & Water Board of New Orleans state that a member who has reached age 70 ½, and who has not yet retired by the end of the same calendar year, must decide annually to: (1) receive the calculated RMD by April 1 of each calendar year following the calendar year in which the member reaches age 70 ½ or (2) delay receiving RMDs until no later than April 1 of the year following the member's retirement from the Plan.

Leave Management

The Family and Medical Leave Act (FMLA) allows qualified employees of covered employers to take up to 12-weeks of job-protected leave for a Qualifying Event for either the employee's own serious health condition or one of an immediate family member. FMLA can also be taken for the birth, adoption or placement of a child. FMLA provides job protection as the employee is reinstated to either the same position or an equivalent position following the approved leave period. FMLA also ensures the preservation of employer health insurance coverage. Further expansions of FMLA were passed that allow qualified employees to take up to 26-weeks of job-protected leave relating to an immediate family member's active duty military service. Recently signed into law, and in response to the COVID-19 pandemic, FMLA was further expanded under the Families First Coronavirus Response Act (FFCRA). This expansion relaxed certain eligibility and other requirements of FMLA and provided paid leave and relief for qualified employees directly affected.

Paid Parental Leave

Pursuant to the City of New Orleans' initiative to provide paid leave to eligible employees following the birth of a child or the adoption of a child, SWBNO provides up to eight (8) weeks of paid Parental Leave. This alleviates the financial impact on employees and provides paid time off for bonding with a newborn child or placement of an adoptive child.

Leave Donation

City employees can donate days of accrued Sick Leave and Annual Leave to eligible employees who are approved for a medical leave of absence. Donated leave can be for either the employee's medical leave of absence or the employee's immediate family member's illness.

Military Leave

SWBNO pays up to fifteen (15) days of paid Military Leave per year to employees who enter into active military duty with the U.S. Armed Forces. Employees can use accumulated Sick Leave and Annual Leave beyond the fifteen (15) days of paid Military Leave.

What's New and Exciting in Recruitment & Compensation !!!

The recruitment, classification & compensation department is very excited to begin electronic requisitions.

A requisition is the document that initiates HR functions such as new hires, transfers and promotions. Currently, a paper form is completed and sent via inter-office mail between departments.

Moving this process online is a major step forward for the agency and will encourage total transparency between managers, department heads, executive leadership and civil service.

All stakeholders will be able to track the life of a requisition in real time and we're excited

Employee Relations & Training

What is Employee Relations?

Employee Relations is a division of the Human Resources department that provides direction and oversight for employee related matters like time-off, formal and informal employee complaints, investigation of harassment and discrimination claims, termination of employees, unemployment compensation claims and much more. Employee relations also coordinates workplace educational opportunities and EEOC position statements.

What Employee Relations Does?

Employee relations are the relationships among SWBNO's employees and between the employees and the company itself. Every individual has multiple relationships with their colleagues at work – relationships with their peers, managers, and other employees. The relationship with each is good, mediocre, or bad.

The Employee Relations Office manages these relationships. Employee Relations manages many responsibilities related to employees including policy development and interpretation, liaison between different employees, performance management, and training employees.

Some other responsibilities Employee Relations takes on:

- It is the first point of contact for upper and lower level employees with questions or who need assistance regarding workplace conflicts, internal policy interpretations, and general consultations related to work. Employee Relations focuses on customer-service and expanding workplace communication.
- The department represents the interests of the company as a whole and makes decisions based on what is right for the entire organization.
- Employee Relations facilitates communications between management and lower level employees concerning workplace decisions, grievances, conflicts, and problem resolutions.
- The department provides a place for employees to confidentially talk about their questions and concerns without fear of negative consequences. With very few exceptions, like when a danger is posed by the information provided or a law is being broken, conversations with Employee Relations staff are kept confidential.
- Employee Relations manages workplace educational opportunities to help enhance positive workplace interaction among employees, job satisfaction, and employee retention.
